# Overview

1. A Major Theme

2. The Other Major Theme

## A slide with some bracketed text

- Some statement<sup>1</sup>
- Another statement<sup>2</sup>
- A final statement<sup>3</sup>

(a small note)

---

<sup>1</sup>This is a footnote.

<sup>2</sup>This is a footnote.

<sup>3</sup>This is a footnote.

## A slide title

- A bulleted item
- Another item
  - With sub-bullets<sup>4</sup>
  - And another, with some **bold** text
- And another, at the top level, with *italic* text

---

<sup>4</sup>Test

# Theorems, Lemmas, Corollaries, Examples, and Proofs

## Theorem 1- The hardest theorem

We love hard lemmas,  $1 + 1 = 2$

## Lemma 2- The hardest lemma

We love hard lemmas,  $1 + 1 = 2$

## Corollary 3- The hardest corollary

We love hard corollaries,  $1 + 1 = 2$

## Example 4- The hardest example

We love hard examples,  $1 + 1 = 2$

## *Proof:*

We love hard proofs,  $1 + 1 = 2$

## Blocks of Highlighted Text

In this slide, some important text will be highlighted because it's important. Please, don't abuse it.

## A slide with centered text

Some statement that is centered.

(a small note)

## A slide with some text and a link

- This slide has some text along with a link
  - **Some bold text:** followed by an explanation
  - **More bold text:** followed by more text
- Another bullet, with sub-bullets
  - A sub-bullet
  - Another sub-bullet, with more text

[github.com/anishathalye/auriga](https://github.com/anishathalye/auriga)

## A slide with some code

```
/* some code */  
def foo(x):  
    return x**0.5 + 2*x  
  
/* some can be highlighted */  
foo(3)
```

Some explanatory text, in red, with some **monospace text**. There might be some math, too:

$$\sqrt{x} + 2x + \sum_{i=1}^N x_i^2 + \int_{-\infty}^{+\infty} x \, dx$$

## A 50-50 split slide

- This side has a bullet
- And another bullet, with text that wraps if it's long

A figure caption
